Creer Objective

As an aspiring Frontend Developer, I am eager to gain hands-on industry experience and learn from seasoned professionals. I am committed to contributing to innovative projects, enhancing user experiences, and growing as a proficient developer in a dynamic IT environment.

Skills

Language: JavaScript

Front-End: React, HTML, CSS, Tailwind CSS, DaisyUi.

Back-End: Node.Js, Express.Js, Mongoose

Database: MongoDB

Authentication: Firebase, JWT

Payment Gateway: Stripe

Tools: GitHub, Dev Tools, Netlify, Vercel, Figma

Projects

ReactHub (MERN)

[Client](#) | [Server](#) | [Live](#)

This online forum-type website allows people to create posts, comment, and vote. Users can also report comments.

Key Features:

- Authentication: I have used Firebase for authentication.
- Dashboard: Different dashboards for general users and admin with different data access levels.
- UI: Created interactive UI using React with the help of Tailwind CSS.
- Data: Used MongoDB with Node and Express for dynamic data fetching and basic crud operation.

AssignmentBuddy (MERN)

[Client](#) | [Server](#) | [Live](#)

This is an online group study website where students can create, submit, and give marks to other assignments.

Key Features:

- Authentication: I have used Firebase for authentication.
- Data Security: Use the JWT token to securely transmit data and prevent unauthorized access.
- UI: Created interactive UI using React with the help of Tailwind CSS and Framer Motion.

A sleek e-commerce platform for top Technology and Electronics brands, featuring robust product management and user authentication.

Key Features :

- Comprehensive Product Management: Add, update, and view detailed information for a wide range of tech products.
- Secure User Authentication: Email/password and social login options, with private routes for personalized experiences.
- Dynamic Brand Pages: Brand-specific product displays with advertising sliders and product details.
