

# FULL STACK DEVELOPER

Youssif Ali Salama

Egypt, Al-Behera

+20 1556543218

<https://github.com/youssif-salama> <https://youssif-salama.github.io/portfolio/m/Youssif-Salama>

## Technical Skills

React.js, Next.js, Express.js, Java Script, Type Script, Redux toolkit, Mongodb, Mongoose, Sequelize, Html, Css, Tailwind

## Soft Skills

Team Management, Time Management, Problem Solver, Working Under Stress

## Experience

### Lxdyi Company

March 2024–Jun 2024

#### Front-End Developer specializing in React.js (Freelance)

Remote

Specializing as a front-end React.js developer, my expertise lies in designing intuitive dashboards, crafting sleek interfaces, and optimizing user experience.

Explored methods to visually present and distribute daily test result reports to team members through React.js

### Rai Company

#### Full Stack MERN Developer (Contract)

Jul 2024–current

In charge of overseeing two trainers and managing the company's work with AI models and their integration.

Remote

Create projects using the MERN stack and deploy it.

## Projects

### Ba7r Dashboard featuring React, Redux, and third-party JavaScript libraries.

Mar2024

- Developed an e-commerce water services dashboard using React and Redux Toolkit, enhancing state management for seamless user interaction and data handling.
- Integrated third-party libraries to augment dashboard functionality, such as charting libraries for insightful data visualization and UI components for enhanced user experience.
- Leveraged React's component-based architecture to create a modular and scalable dashboard, ensuring flexibility in accommodating future feature enhancements and updates.

### Nour company (freelance)

sept2024

- The company manages tenants and landlords in Saudi Arabia.
- It's a real state saas made by react.js, lots of libraries like (react data tables, moment-higiri for dates, toasters, export files lib) consists of almost 30 pages and popups with hard crud operations developed with well functionality and algorithms. using props drilling and redux state management.

### kunsiltifay-arabya

Mar2024

Employing React, I revamped a landing page with updates and engaging animations. Leveraging React's dynamic capabilities, I enhanced user experience through seamless transitions and interactive elements. These updates inject vibrancy into the page, capturing user attention and elevating its appeal, ultimately driving increased engagement and conversion rates. a responsive react.js landing page with aos transitions and animations

## Education

Damanhour University: Faculty of Computer Science and Information Technology has a GPA of 3.25.

Back End Diploma (Route Academy)

diplay

## Leadership / Extracurricular

### GDSC FrontEnd

*Damanhour*

#### Instructor

- As a frontend instructor, skillfully communicate intricate concepts in React.js and Redux Toolkit to help learners grasp them thoroughly and ignite a love for creating dynamic user interfaces.
- Motivate students with your creative teaching approaches, using real-world scenarios and hands-on activities to empower them to thrive in frontend development, providing them with the necessary skills for a successful career in the field.

### MBD BackEnd

Remote

#### Instructor

- A Syrian academy startup that assists students in learning development and engineering technology
- Responsible for teaching them backend technologies such as Node.js, Express.js, MongoDB, and Mongoose
